Amendments to the Specification:

Please replace the previously amended paragraph beginning at page 4, line 15 with the following amended paragraph:

-- The radiotelephone 1 is provided with an advanced user interface based on a set of menus having a pre-defined hierarchical structure each of which can be selected by the user of the radiotelephone 1. Each menu contains a list of one or more options, which the user may browse using scroll key 8 and from which specific functions are selectable. The user interface permits the user to request the performance of certain functions by the radiotelephone 1 which include, but are not limited to, accessing sources, including multimedia sources, from various locations with a communications network comprising the PLMN 3, PSTN 4 and the Internet 5, in addition to the memory resource of the radiotelephone itself ~~which may be in a lookup table containing locations from which components are selectable with at least one of the locations being the memory of the radiotelephone 1 (not illustrated).~~
